Hind.QuartetEffect ............................................. 1
Nsp.QuartetEffect .................................................. 1
Sty.QuartetEffect ................................................... 1
Xba.QuartetEffect ................................................... 2
quartet ................................................................. 2
snpInfo ................................................................. 2

Index 3

Hind.QuartetEffect Hind.QuartetEffect

Description
It contains computed quartet effect for Hind array. Those were computed on some normal samples of the hapmap dataset.

Nsp.QuartetEffect Nsp.QuartetEffect

Description
It contains computed quartet effect for Nsp array. Those were computed on some normal samples of the hapmap dataset.

Sty.QuartetEffect Sty.QuartetEffect

Description
It contains computed quartet effect for Sty array. Those were computed on some normal samples of the hapmap dataset.
Description

It contains computed quartet effect for Xba array. Those were computed on some normal samples of the hapmap dataset.

Usage

data(quartetInfo)

Description

An example for the vignette

Usage

data(snpInfo)
