SpikeIn
Affymetrix SpikeIn Experiment Data

Description
Probe-level data for data from the HGU95 and HGU133 SpikeIn experiments.

Usage
\begin{verbatim}
data(SpikeIn95)
data(SpikeIn133)
\end{verbatim}

Format
Both SpikeIn95 and SpikeIn133 are instances of the \texttt{AffyBatch} containing the \textit{PM} and \textit{MM} intensities for a genes spiked in at different concentrations. The spike-in concentrations used are provided as part of the phenotypic data (e.g. \texttt{pData}).
