

Nomination Form: Bioconductor Technical Advisory Board (TAB)

Complete this form to nominate a candidate for a three-year appointment to the Bioconductor Technical Advisory Board (TAB). Self-nomination and nomination of others are acceptable; if nominating someone else please check with them first that they intend to accept the nomination.

The composition of the TAB is determined through a nomination and selection process defined in the Bioconductor TAB Governance Document

(<https://bioconductor.org/about/technical-advisory-board/TAB-Governance.pdf>). The TAB should:

- constitute a broad representation of the Bioconductor scientific community
- include emerging and established researchers in biological, statistical, and computational domains
- represent diversity of gender, race/ethnicity, geography, and other aspects of the Bioconductor community

Participation in the TAB obligates the member to regular participation in a monthly TAB teleconference and to follow the Bioconductor TAB Governance Document. Nominees are encouraged to be specific about any committees they would like to participate in or initiatives they would like to lead. Some existing and planned committees within the Bioconductor project are: Code of Conduct, Education and Outreach, Infrastructure, Governance, Cloud, various conference organizing committees (see <http://workinggroups.bioconductor.org/>). The TAB helps determine the overall direction of the project, providing guidance to developers and investigators on new concepts in computational biology and genome research, and acts as an incubation group for the collaborative pursuit of funding for the project.

* Indicates required question

1. Email address of nominee (if different from submitter above)

2. Name of nominee *

3. **Statement on Diversity**

An objective of the TAB is to reflect the diversity of the Bioconductor community. We invite you to comment on how the nominee would add diversity to the board, for example gender, race/ethnicity, geography, field of expertise, etc. (1-3 sentences)

4. **Statement on Contributions to Bioconductor ***

TAB members support the development of Bioconductor. Please include a statement on how the nominee has or intends to contribute to the Bioconductor project. Examples include but are not limited to: contributed R/Bioconductor packages, support site contributions, community organization, usage and teaching of R/Bioconductor software, or other evidence of commitment to the Bioconductor project. (1-3 sentences)

5. **Statement of Candidacy ***

How will the nominee's participation contribute to the direction of the project? (2-5 sentences)

6. Nominee's availability for monthly calls, first Thursday of month, 12 noon U.S. Eastern Time *

Mark only one oval.
